From the desk of the Club President

It is an immense pleasure to present to you a successful National Salon and exhibition organised by Himalayan Camera Club, Siliguri. The members of the club were very keen to make the event meaningful and praiseworthy. We have been working since 2009 by organising various photographic works. Nowadays the world is centred round photographic images. Together with technology, photographic images express human emotions and record worldly documents. The awarded images and accepted entries in this salon were of high standard, and in future we shall strive towards making the salon more attractive and interesting with the help of Federation of Indian Photography.

I hope that you enjoy watching the wonderful images in this catalogue, which I am sure will give you a flavour of the superb exhibition we had this year.

The Salon committee would like to thank the jury members for all their hard work and particularly for their good humour and cooperation over the judging session.

At the end I would like to thank all the members of the Himalayan camera club who helped during the period of the salon and exhibition.

Dwiparna Kumar Datta,
President, Himalayan Camera Club

From the desk of the Salon Chairman

Since inception in 2009 Himalayan Camera Club has been working on the development of photography and photo-artistry with incessant (?) effort. In 2010 we organised a Photography Circuit with the affiliation from the Federation of Indian Photography. It was a circuit involving three photography organisations: Photographic Association of Coochbehar, Himalayan Camera Club and Alipurduar Photographic Society. The year after our footsteps grew stronger and we organised our 1st All India Salon of Photography (Print) 2011.

After that, for almost 12 years we remained silent in terms of organising any kind of salon. It was a transitional phase for photography as well. Digital age was gaining momentum and it was really a phenomena which dramatised things. Number of salons increased, photographic tools got changed, a new school of photographic thought appeared, a pushback was noticed amongst the orthodox, and so on and so forth. We as photographers and photo-artists had to deal with the demand of technological advancements. Wedding photographers and videographers compelled the camera manufacturers to look into their demands and work accordingly. A megapixel war came to the surface. But hopefully, art and creativity, as we all know, is a timeless activity, and so photo-artists were unmoved and continued their creative journey.

A great number of our members moved to the commercial arena and we were left with only a few members. But again time proved that temporaneity is never a sign of the creative disposition. Our members inflated once again in terms of both creative interest and number, and last year we could come up with another salon. And now in 2024 our 3rd Salon made us hopeful of the club's future. We are planning to organise our first ever international salon next year. We need support from all the CREATIVE MINDS.

All hail art and photography!

Subrata Kar

Salon Chairman
